## Secure Point-Of-Sale

## Transaction Processing Services

**eProcessingNetwork's** Java Point-Of-Sale software for Windows®-based PC's and Laptops enables merchants to securely process credit, PIN debit, check, gift card and loyalty transactions.

Merchants receive real-time responses from cardholders issuing banks and batches are automatically settled every day.

### Software Highlights

- Credit and PIN Debit
- Manually Keyed or Swiped
- Signature Capture
- Check Processing
- Gift Card and Loyalty
- Customizable Receipts
- Add logos, coupons, promos, etc.
- EMail Receipts
- Use Windows®-compatible printers
- Save paper
- Environmentally friendly

The Woosim PORT1-SC30 Bluetooth-Enabled MagStripe Reader / Printer Is Great For Mobile Laptop Merchants!

The Ingenico® i6550 MagStripe Reader / PIN Pad is ideal for Customer-Facing Credit & PIN Debit Transaction Processing with Signature Capture

### Merchant Benefits

- Replace traditional terminals
- Less counter space required
- More cost-effective
- Manager/Clerk controls
- Track sales by clerk
- Limit ability to accept refunds and voids
- Multi MID/Merchant Capability (Great for doctor's offices, hair salons, owners of multiple business units)
- Separate reporting
- Use existing Internet connection
- No phone line required
- Combine with other ePN solutions (QuickBooks®, Wireless processing)
